University Institute of Engineering

Department of Computer Science & Engineering

Experiment: 2.1

Student Name: MD. Anas Khan **UID: 22BCS12871**

Branch: Computer Science & Engineering **Section/Group: 212-C**

Semester: 1st **Date of Performance: 09/11/22**

Subject Name: Disruptive technology-1

Subject Code: 22ECH-102

1. Aim of the practical: Machine learning model using PyCaret

2. Tool Used: Google Colab

3. Code Used:

DT PRACTICAL - 2

Installing pycaret

```
!pip install pycaret &> /dev/null
print ("Pycaret installed sucessfully!!")
```

```
Pycaret installed sucessfully!!
```

Get pycaret version

```
from pycaret.utils import version
version()
```

```
' 2.3.10 '
```

Classification: Basics

Loading Dataset - Loading dataset from pycaret

```
from pycaret.datasets import get_data
```

Get the list of datasets available in pycaret (55)

```
dataSets = get_data('index')

# instances = number of rows
# attributes/features = number of columns
```

University Institute of Engineering

Department of Computer Science & Engineering

Evaluation Grid (To be filled by Faculty):

Sr. No.	Parameters	Marks Obtained	Maximum Marks
1.	Worksheet completion including writinglearning objectives/Outcomes. (To be submitted at the end of the day)		10
2.	Post Lab Quiz Result.		5
3.	Student Engagement in Simulation/Demonstration/Performance and Controls/Pre-Lab Questions.		5
	Signature of Faculty (with Date):	**Total Marks Obtained:**	**20**
